## Skills

**Management Skills:**
- Portfolio/Program/ Delivery/Engineering/Product/Project Management (FB, T&M)
- MPP
- MS Visio
- MS-Office Suite
- MS SharePoint
- MSPS, Clarity
- JIRA, Confluence
- Continuous Integration/Continuous Delivery (CI/CD)and

ordination, People Management/Resource Management, Reporting to higher management, monitoring & tracking of status (Effort Variance [EV], Schedule Variance [SV], Project Maturity Index [PMI], Project Performance Metrics [PPM]), Earned value Analysis [EVA], Invoice Raising, Tracking Collections, Quality Management teams, SOX Compliance, Coordination with Finance Teams, Coordination with Resource Management Teams, Coordination with HR Teams.

Capable manager, leader and a team player with great experience in working alongside people across all levels.

Solid experience in Automotive, Industrial & Farming Equipment, Media, Communications & Technology, Cloud Solutions (Private & Public Cloud), BFSI, GST & Healthcare domain applications ranging from design and development of complex model-view-controller based systems to delivery, maintenance & support of web applications, Continuous Integration/Continuous Delivery and Continuous Deployment, Service Delivery Excellence, RCA, Incident Management, Change Management, Release and Configuration Management, Risk Management, Conflict Management, Transition Management, Operations & Continuous Improvements & Process Co-ordination

- Expert in following the Waterfall, Agile & Scrum methodologies for Java/J2EE Web based Applications, OOPS, OOAD, Data Structures, Design Patterns, RDBMS, ORM, SOA, IaaS, SaaS, PaaS
- Process oriented & Quality focused person.
- Wide experience in technologies like JDK1.4, JDK1.6 Struts, UML, HTML, Java Script, XML, XHTML, CSS, JSP, Servlets, Hibernate, JPA, Web logic 10.3, Log4j, Ant, Oracle ADF, Web services, i18N, Sphinx/Thinking Sphinx search engine, ROR 3.0.3, PL/SQL, Webservices, REST, RESTful, SOAP, ESB & JBPM

Capable of exhibiting inspiring managerial, leadership, coordination, communication, interpersonal, teamwork, knowledge sharing skills & stable performer even under pressure environments to meet delivery deadlines, milestones, targets, budgets.

Coordinate human resources to optimize functional efficiency of the team to achieve delivery deadlines, milestones, targets, budgets.

- Continuous Deployment
- Timeline Management
- Project planning, Estimation, Scheduling, Code Reviews
- Risk Management
- Change, Release & Configuration Management
- Software Development Lifecycle (Agile, Scrum, Kanban & Waterfall methodologies)
- Proof Of Concept (PoC), Solution & Architectural Proposal/Reviews
- UML, OOPS, OOAD, Data Structures, Design Patterns, RDBMS, ORM, SOA, Cloud Solutions (Private & Public Cloud [AWS, Google Cloud, Microsoft Azure])
- Operations Management, Governance, Monitoring
- PMO
- Advanced problem solving
- Dedicated team player
- Staff management

# Work History

**2017-11 -
2019-07**

### Project Manager

*Infosys Ltd, Chennai, Tamilnadu, India*

- Portfolio or Program Manager/Anchor for Function & Services Tower of Security & Fraud Platform of a large U.K Banking Client
- Portfolio or Program Manager for AML space of Core Banking from Infosys side directly reporting to RBS Program Manager for providing Tactical (Short-term) & Strategic (Long Term) advisory services in the areas of:
  - ➢ Program/Portfolio/Project Management advisory for adherence to P3M principles of RBS
  - ➢ Governance Advisory
  - ➢ Requirements Traceability Advisory
  - ➢ Data Analytics Advisory which includes ETL, Informatica, etc
  - ➢ Environment Configuration & Setup optimization advisory which includes Actimize tool
  - ➢ Migration of Monitor 5.5 to SAM 8 advisory
- Managed & Anchored the Due Diligence & Proposal for a large Indian Life Insurance Client
- Managed & Anchored the Proposal for a large Indian Health Insurance Client
- Managed & Anchored the roll out of GST Return Forms for Input Service Providers in Agile Environment
- Developed long-term business strategy by using customer feedback to identify necessary process improvements.
- Adjusted project plans to account for dynamic targets, staffing changes and operational specifications.
- Created and maintained schedule to protect company from dead-deal expense while meeting contractual obligations.

- Team oversight
- Process optimization
- Stakeholder Relations & Management
- Interdepartmental coordination
- Contract review, recommendations & renewals, MSA, SOW, RFI, RFP
- Multi-site operations
- Service Management, Service Delivery, Delivery Excellence (DeX) & Continuous Improvements (CI)
- Issue resolution, Defect Management, Incident Management, ITSM Remedy, ITIL, ServiceNow
- Functional & Business Requirements
- Budgeting, Procedure development
- Human resources management, Performance Management
- Dependable, Goal attainment, Employee relations, Team building, Strategic planning, Flexible

- Held pre-determined schedules and worked with subcontractors to cut costs and complete projects on time and under-budget.
- Produced short span Tactical solutions for 3 months and long term Strategic Solutions for 6 to 9 months, updating customers and senior leaders on progress and roadblocks.
- Performed detailed assessments of risks to determine constraints and develop mitigation strategies.
- Created full-scope cost estimates for bid builds and designed build projects.
- Closely collaborated with Client Program Managers to identify and quickly address problems.
- Delivered projects to pre-determined budget, maintaining time parameters and quality standards.
- Detailed improvements to restoration plans by creating detailed budgets, schedules and costing estimates for clients.
- Increased efficiency and team performance by implementing actionable process improvements.
- Increased customer satisfaction by 90% by solving problems and concerns effectively.
- Managed and led multi-disciplinary design team throughout development and contract document phases for $ 50,000 project.
- Implemented set of comprehensive tracking processes to monitor project performance.
- Established planning objectives for projects by identifying key issues, approaches and performance metrics.
- Developed implementation methodologies to rein in project costs while meeting key milestones.
- Headed 6 project teams of 20 members specializing in Advisory, Agile & Waterfall based build/implementation projects.
- Provided management for 25 internal personnel
- Inspired Agile technical projects teams to high levels of performance and quality to provide exceptional business value.
- Developed 5 executive presentations and reports to facilitate project evaluation and process

- Project bidding, Analytical
- Performance evaluations
- Strong Communication skills (Verbal & Non-Verbal)
- Follow-up on Action Items to Closure, Excellent Co-ordination, management & organizing skills

**Technical Skills:**
- JDK 1.2 to JDK 1.6
- HTML, Java Script, XML, JSON, CSS, JSP, Servlets
- Servers- Weblogic, Apache, WebSphere, JBOSS
- J2EE Frameworks - Struts,JPA,JMS,JSP,BPM,ESB
- Cloud Solutions (Private & Public Cloud)
- IaaS, SaaS & PaaS
- ORM Framework (Hibernate)
- Databases - Oracle 9i, 10, 11g, DB2
- Build Tools – Ant, Maven
- IDE – WSAD, Eclipse, Oracle Fusion, Oracle ADF, JBOSS Developer Studio
- VCS – PVCS, VSS, SVN, GIT
- Logging – Log4j
- SQLWorkbench
- SOAP UI

improvement.

- Made appropriate changes and modifications to project plans to meet organizational needs.
- Empowered 5 project teams for Open Source technical development in Agile environment for $25,000 IT program.
- Utilized cross-training techniques to boost productivity and develop each team member's individual skills set.
- Utilized data regarding industry trends to shape solutions and approaches.
- Developed and initiated projects, including managing costs, schedule and performance to ensure timely completion.
- Collaborated with clients, architects, engineers, and sub-consultants on Agile projects with budges up to $25,000.
- Monitored project costs, developed job cost forecasts, managed cash flow and approved invoices for payment.
- Improved resource allocation to promote efficiency and deadline management.
- Worked with senior leadership to ensure complex projects were completed on time and under-budget.
- Drove team success through shared vision and recognition of quality performance.
- Met and exceeded contractual obligations while scheduling company to effective avoid dead-deal expenses.
- Supported leaders throughout decision-making and launch by providing compliance reports to drive process improvement and corrective measures.
- Identified plans and resources required to meet project goals and objectives by setting realistic timelines and checkpoints.
- Managed hiring for certain roles and actively coordinated talent management and recruitment.
- Reduced obstacles and variables to maintain production efficiency, meet deadlines and deliver 90 % improvement in productivity.

- TinyMCE editor
- APIs
- Web services (REST, RESTful, SOAP)
- Micro services
- Internationalization (i18N)
- Search Engines (Sphinx/Thinking Sphinx)
- ROR 3.0.3
- SQL (PL/SQL, MySQL)
- OS (Windows [All Flavours], Linux [Ubuntu], Unix, MacOS)

- Aligned with staff members to develop, identify and achieve assigned goals and initiatives.
- Maintained schedules to ensure that key milestones were being met at every phase.
- Managed 5 project teams in Agile environment, realizing success through application of SDLC methodologies and exceptional leadership skills.
- Enforced alignment of project strategy with business objectives and made modifications to promote efficient project completion.
- Monitored contracts and service level agreements to identify potential risks and implement mitigation actions to protect development process from unforeseen delays and costs.
- Reduced expenditures by effectively negotiating vendor and service contracts to drive savings.
- Kept project on schedule and within budget while serving as project leader.
- Established and oversaw synchronized, cohesive team by inspiring confidence and offering guidance.
- Increased customer satisfaction through adherence to all quality standards and customer requirements.
- Fostered client retention by providing efficient service.
- Utilized lean practices to balance workflow and alleviate redundancy.
- Collaborated with team members to develop, identify and accomplish assigned goals and objectives.
- Acquired knowledge of industry trends and developed solutions and strategy through effective research.
- Orchestrated projects within strict timeframes and budget constraints by employing critical thinking to solve complex problems and working closely with senior leaders.
- Practiced lean principles, which led to improvements in workflow and quality and waste reduction.
- Defined clear targets and objectives and

communicated to other team members.

- Effectively supervised staff of 25 personnel by implementing company policies, protocols, work rules and disciplinary action.

**2015-07 - 2015-10**

**Project Manager**

*Infosys Ltd, Chennai, Tamilnadu, India*

- Portfolio or Program or Delivery Manager for the entire Web Application Space of a large European Automobile Client have led 100 FTEs or resources
- Performed detailed assessments of risks to determine constraints and develop mitigation strategies.
- Detailed improvements to restoration plans by creating detailed budgets, schedules and costing estimates for clients.
- Delivered projects to pre-determined budget, maintaining time parameters and quality standards.
- Adjusted project plans to account for dynamic targets, staffing changes and operational specifications.
- Sourced additional resources and staff to meet timeline demands.
- Maintained tactical control of project budgets and timelines to keep teams on-task and achieve schedule targets.
- Increased effectiveness of bidding processes by reviewing contractor scopes and material takeoffs.
- Produced short term Tactical Solution for a span of 3 months and a long term Strategic Solution for a span of 6 to 9 months, updating customers and senior leaders on progress and roadblocks.
- Educated key personnel in appropriate production methods to achieve expectations and meet quality control standards.
- Took active role in company growth by consistently providing quality customer service to promote growth and retention.
- Developed long-term business strategy by using customer feedback to identify necessary process improvements.
- Created and maintained schedule to protect

company from dead-deal expense while meeting contractual obligations.

- Held pre-determined schedules and worked with subcontractors to cut costs and complete projects on time and under-budget.
- Enforced alignment of project strategy with business objectives and made modifications to promote efficient project completion.
- Kept project on schedule and within budget while serving as project leader.
- Identified plans and resources required to meet project goals and objectives by setting realistic timelines and checkpoints.
- Reduced costs by driving competitive subcontractor bids and effective contract execution.
- Fostered client retention by providing efficient service.
- Increased customer satisfaction through adherence to all quality standards and customer requirements.
- Developed 5 executive presentations and reports to facilitate project evaluation and process improvement.
- Delivered completed projects on time by prioritizing multiple tasks.
- Drove team success through shared vision and recognition of quality performance.
- Established planning objectives for projects by identifying key issues, approaches and performance metrics.
- Led project scheduling and budgeting to successfully and quickly complete engineering projects.
- Provided management for 100 internal personnel.
- Reduced project downtime by inspecting web application products to ensure top quality and adherence to client requirements.
- Empowered  25 project teams for Web application  technical development in Agile environment for $75,000 IT program.
- Worked with senior leadership to ensure complex

projects were completed on time and under-budget.

- Implemented cross-training to improve depth of skill sets within team.
- Developed implementation methodologies to rein in project costs while meeting key milestones.
- Modified and directed project plans to meet organizational needs.
- Managed 25 project teams in Agile environment, realizing success through application of SDLC methodologies and exceptional leadership skills.
- Met and exceeded contractual obligations while scheduling company to effective avoid dead-deal expenses.
- Analyzed product and process and provided actionable solutions including changes to processes, products or quality standards where warranted.
- Developed and initiated projects, including managing costs, schedule and performance to ensure timely completion.
- Oversaw large portfolio of projects to support teams, report progress and influence positive outcomes for key stakeholders.
- Managed and led multi-disciplinary design team throughout development and contract document phases for $75,000 project.
- Implemented set of comprehensive tracking processes to monitor project performance.
- Utilized cross-training techniques to boost productivity and develop each team member's individual skills set.
- Completed projects on time and under budget.
- Improved resource allocation to promote efficiency and deadline management.
- Managed hiring for certain roles and actively coordinated talent management and recruitment.
- Headed 25 project teams specializing in Web Applications in Agile & Waterfall models .
- Increased customer satisfaction by 80% by solving problems and concerns effectively.

- Aligned with staff members to develop, identify and achieve assigned goals and initiatives.
- Established and oversaw synchronized, cohesive team by inspiring confidence and offering guidance.
- Increased efficiency and team performance by implementing actionable process improvements.
- Practiced lean principles, which led to improvements in workflow and quality and waste reduction.
- Managed project elements for multiple initiatives from initial planning to project rollouts.

**2013-02 - 2014-11**

## Software Engineering Team Lead

*ACCENTURE SERVICES INDIA PVT. LTD. , Chennai, Tamilnadu, India*

- *Offshore Lead (Delivery, Service Delivery Excellence, PMO, Knowledge Transitions, Resource Coordination, Process Coordination, Training) in Health Analytics Solution Space of large U.S Health Care client.*
- *Offshore Lead (Estimation, Development, Delivery, Support, Transition, Resource Coordination, Process Coordination, Training) for a large U.S Payments Gateway client*
- *Offshore Lead (Estimation, Development, Delivery, Support, Transition, Operations & Continuous Improvement, Resource Coordination, Process Coordination, Training) for* Accenture Cloud Platform which provides cloud enabled IaaS, Paas, SaaS services for Enterprise Provisioning System
- *Offshore Lead (Estimation, Design, Development, Delivery, Resource Coordination, Process Coordination) for a large U.S based telecommunication networking client*
- *Led a team of more than 50 Associate Software Engineers,* Software Engineers *and Senior* Software Engineers *in offshore in Delivery, Service Delivery & Program Management Operations*
- *Gathered and defined customer requirements to develop well-organized project plans based on clear specifications.*

- Contributed ideas and suggestions in team meetings with Client Project Managers and Accenture higher management and delivered updates on deadlines, designs and enhancements.
- Oversaw 10 major new enhancements to existing software systems.
- Evaluated project requirements and specifications and developed software applications that surpassed client expectations.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Developed next generation integration platform for internal applications.
- Collaborated on all stages of systems development life cycle, from requirements gathering to production releases.
- *Identification of Continuous Improvements.*
- Weekly interaction with the client.
- *Transition Manager* responsible for Knowledge Transition to the offshore delivery teams for the analytics of health care solutions
- Technical Recruiting (Java/J2EE)
- *Suggested POCs to delivery teams based on the continuous improvements identified.*
- Responsible for the review of Project Plan, Functional Specifications, LLD, HLD, Test Strategy, Test Plan, Test Cases, Project Tailoring Record, etc.
- *Offshore-Onsite Co-ordination.*

**2004-06 - 2012-12**

## Band T (Sub Band T-1)

*Tech Mahindra Erstwhile Mahindra Satyam, Chennai, Tamilnadu, India*

- *Team Lead (Development, Delivery, Transition Management, Service Delivery, PMO, Resource Coordination, Process Coordination, Training) for a large U.S Media Client*
- *Team Lead (Estimation, Development, Delivery, Transition Management, Service Delivery, PMO, Resource Coordination, Process Coordination, Training) for a large U.S Automobile Client*

- *Team Lead (Estimation, Development, Delivery, Transition Management, Service Delivery, PMO, Resource Coordination, Process Coordination, Training) for a large Original Equipment Management client*
- *Team Lead (Estimation, Development, Delivery, Transition Management, Service Delivery, Training, Resource Coordination, Process Coordination, Training) for a large U.S Media Client*
- *Team Lead (Estimation, Development, Delivery, Transition Management, Service Delivery, Training, Resource Coordination, Process Coordination, Training) for a large* U.S Automobile Client
- *Team Lead (SME/Application Lead/Support Lead, Estimation, Development, Delivery, Transition Management, Service Delivery, Training, Resource Coordination, Process Coordination, Training)* for a large U.S Automobile Client
- Team Lead (SME/Application Lead/Support Lead, Estimation, Development, Delivery, Transition Management, Service Delivery, Training, Resource Coordination, Process Coordination, Training) for a large U.S Industrial and Farming Equipment Client
- Review and consolidation of document of understanding of client applications
- ·     Infrastructure set up at offshore.
- ·     Led the 5 member SE, SSE offshore team.
- ·     Technical Recruiting (Java/J2EE)
- ·     *On-boarding & Off-boarding process.*
- ·     *Co-ordination of offshore team.*
- ·     *Monitoring and tracking of daily operations*
- ·     *Review and consolidation of weekly status reports*
- ·     *Review and consolidation of work logs*
- ·     *Arranging of Domain & Technical Training for the team.*
- ·     Analyze the requirement
- Technical Recruiting (Java/J2EE) consisting of 10 member SE, SSE Offshorliente team) for client on the migration of oracle 10g Forms, Reports to Java/J2EE

using Oracle ADF 11g with Toplink as the ORM framework and Websphere Application Server 8.0 as the application server.

· *Providing Estimation for both Manual Vs Tool Based Approach*

· Led the development of a POC (consisting of 10 member Software Engineers, Senior Software Engineers Offshore team) for the client on the migration of oracle 10g Forms, Reports to Java/J2EE using Oracle ADF 11g with Toplink as the ORM framework and Websphere Application Server 8.0 as the application server.

- *Implemented best practices in PMO activities like Consolidation of Billing Advises, collections from OEM Client, Consolidation of FLASH Data, Sending Defaulter s report, sending Pending confirmation report. Led the 5 member SE, SSE team of PMO.*

- Instrumental in developing key modules like CRUD operations for Abstracts with the usage of TinyMCE 3.3.9.3 editor, Publish GUIDES.

· Implemented MySQL full-text search using Sphinx/Thinking Sphinx.

· Code Review.

· Unit Testing.

· Functional Testing.

· Bug Fixing.

· Version Control using GIT.

· *Infrastructure set up at offshore.*

· *On-boarding & Off-boarding process.*

· *Co-ordination of offshore team.*

· *Monitoring and tracking of daily activities.*

· *Review and consolidation of weekly status reports.*

· *Review and consolidation of work logs.*

· *Arranging of Domain & Technical Trainings to the team.*

· *Led the 5 member SE, SSE offshore team.*

- Provide transition for all the applications which TechMahindra was supporting to another vendor. Performed the role of a Process Coordinator & quality coordinator to maintain the correctness of

Quality Metrics like EV, SV, PMI, etc.

· Performed the role of a Process Coordinator for ITSR projects namely ELAN France, VIMS, CRM Mexico (SOFIA), Fusion Forms, VID, GM Canada, SETI & Sales Force and VIP VISA World book change in GM CG Engagement from June 2009 till January 2010.

· Led the 50 member SE, SSE offshore team. The SMS Web application is a Web based tool that stores Survey Market data that is used by GM employees. The application allows GM Market Research Analysts to access selected market data for all the GM products in an easily usable format, with the ability to manipulate and customize the data into usable information for the GM Marketing, Advertising and Sales and Services departments.

• Responsible for Supporting Change Requests related to Java and Html.

• Testing – unit testing & integration testing.

• Deploying the code in the development, pre-production and production environment.

• The Ambassador application is basically a system which helps the current GM employees, Retirees and their spouses to make referrals to buy a GM vehicle. After accumulating the reward points, the employee can go ahead and redeem his points against his purchase of a GM vehicle. The main goal of this project is to increase overall vehicle sales for GM.

• Responsible for Supporting the application.

• Performing Minor Enhancements and Change Requests related to Java, Struts, J2EE, PL/SQL.

• Code Review.

• Testing – unit testing & integration testing.

• Deploying the code in the development, pre-production and production environments.

• Business process of Allison transmission deals with security of information related to US Defence vehicles. Allison Transmission produces medium- and heavy-duty automatic transmissions for truck, bus, motor home,

military, and off-highway applications.

• Responsible for supporting the application.

• Performing Minor Enhancements and Change Requests related to Java, J2EE, PL/SQL.

• Code Review.

• Testing – unit testing & integration testing.

• Deploying the code in the development, pre-production and production environments.

• Decommissioning of GM Ambassador Website after assigning Certificate Numbers for Manual Redemptions for Available Earnings.

• Responsible for assigning Certificate Numbers for Manual Redemptions for Available Earnings through PL/SQL.

• Deletion of .WAR files from DEV, PPROD and PROD environments.

**Other Activities Includes:**

· I was responsible for infrastructure set up at offshore.

· Led the 10 member SE, SSE offshore team

· Technical Recruiting (Java/J2EE)

· *On-boarding & Off-boarding process.*

· *Co-ordination of offshore team.*

· *Monitoring and tracking of daily operations & activities.*

· *Review and consolidation of weekly status reports.*

· *Review and consolidation of work logs.*

· *Arranging of Domain & Technical Trainings to the team.*

· *Involved in the KT & Reverse KT Process.*

· *Performed the role of a Process Coordinator.*

· *Performed the role of a quality coordinator to maintain the correctness of Quality Metrics like EV, SV, PMI, etc.*

· *Leading the PMO team.*

· *Performed the role of SME.*

· *Identification & implementation of Continuous improvements.*

• Responsible for Analysis of requirements.

• Identification of impact on existing modules Design changes.

• Coding using HTML pages, Java Servlets.

• Code Review.

• Testing - unit testing & integration testing.

• Maintenance
